

OCEAN ISSUES CHOICE ACTIVITY

You will randomly be assigned a problem that currently exists in our ocean right now. Choose one method of “getting involved” with this problem and complete the assignment on time for full credit. *Due: Friday May 29th*
MUST BE PRESENTED IN CLASS!

ACTIVIST INFOMMERCIAL	Make a 3-5 minute video explaining the problem, why it is important to solve it, and detail ways to solve it or how to get involved in making a change. Include visual aids like props, pictures, or artifacts in your video. Must be submitted on vimeo or youtube to share with the world.
ARTISTIC AGENT	Create a visual ad campaign EITHER online or as a large poster/banner that includes areas that explain the problem, reasons why it is important to solve it, and persuades people to get involved in making a change and how they can do so. This can be done on instagram, twitter, facebook, flickr, tumblr, scribd, or any social media platform you choose.
SCIENTIST	Construct an actual scientific investigation to solve this problem. Detail all of the materials, steps, people, and equipment that would be required to carry out this plan, as well as estimate costs and investigate potential companies or organizations that would possibly fund your research.
